

SUSTAINABILITY POLICY BRUSCHI SAPRE

SAPRE believes that the future of the companies should be oriented towards the pursuing of the maximum Customer satisfaction, of the improvement of health and safety working conditions, and of the decrease of the environmental impacts and energy use all over the life cycle of products.

The Management is in this way committed to implement a company management integrated system in compliance with the prerequisites of ISO 9001:2015, and to align with customers specific requisites, as code of conduct, a good international routine, and all the prerequisite specified in the guidelines of social liability.

In this way the Management defined clear resources, tools and management responsibilities.

Behind this management integrated system, the Management analyzed the reference framework, and the expectations of every part involved; and undertakes the revision of this analysis once a year in accordance with any organizational changes or with business strategies to be pursued in the markets of reference.

The risks analysis is the method that SAPRE follows in every management area and the implementation of the continuous improvement is constantly monitored by specific internal indexes and through the taking in charge of the customers' indexes.

Particular attention is given by SAPRE to the respect of rules on competition and to principles linked to face corruption and illegal practices connected.

Every employee is involved in the achievement of the goals posed which are mainly oriented towards:

- Constant improvement of the integrated system and system of measurement of the process performances;
- Constant improvement of quality level of supplying aligned with customers forecasted standards;
- Pollution prevention (of air, water, soil); minimization of environmental risks (also connected with the usage of non-approved chemicals) of energy use and of natural resources connected to activities and products of the company, and to the reduction of waste;
- Improvement of health and safety condition and reduction of workplace accidents.

Periodical and systematic information, training and updating activities are communicated to all the employees to promote responsibility and consciousness on the integrated management system.

In management Review is verified also social compliance objectives and targets and relevant legal requirements.

Specific attention is given to correct management of the following aspects:

- Respect of human rights;
 - Obstruction to forced work;
 - Obstruction to child labour;
 - Respect of right working condition, of right wages, of freedom of association and of collective negotiation freedom;
 - Obstruction to discrimination;
-

- Obstruction to human being trade;
- Obstruction to corruption.

SAPRE is aligned to the **Responsible Business Alliance Code of conduct**.
